DIVING NORTH SULAWESI

Explore Manado, Bunaken->Bangka->Lembeh

We'll make sure you have the holiday of a lifetime, create many happy memories and see world-class marine life.

Lembeh Resort

The Critter Capital of the World, a Muck Diving Mecca and the Twilight Zone are just a few of the names that have been given to Lembeh Strait over the years due to the high density, and diversity, of rare and unusual marine life. Diving in Lembeh is unlike diving anywhere else as every dive reveals countless species of critters which have made their homes here. Lembeh isn't just home to frogfish, it's home to 8 different species of frogfish, 12 species of octopus, 3 species of pygmy seahorse.

Diving & snorkeling can be combined in the same trip, we are fully flexible.

Please Note: While dive packages are flexible at each resort, the dives included during resort-to-resort boat transfers (2 dives per transfer)

Murex Bangka

Bangka dive sites are a sensory overload where the pristine reefs are teeming with life. Pelagics and critters, Bangka has it all!

Unique species include dugongs, dolphins and pilot whales, several species of pygmy seahorse, harlequin and tiger shrimps, blue ring, mimic, reef and wonderpus octopus, ghost pipefish, Ambon scorpionfish, frogfish, turtles, reef sharks, eagle rays, tuna, great barracuda, schooling fish including snappers, fusiliers, cardinals and mackerel.

Murex Manado / Bunaken

Stunning walls and hard corals. Lose count of the number of turtles in a single dive. Look out for reef sharks, schooling fish, sea snakes, passing eagle rays, sting rays, abundant critters and macro life, and resident dolphin and pilot whale pods alongside the boat.

Our Minahasa Highland Tour is the perfect way to explore the area and learn about the local culture and history of the region. We can tailor the tour to take in the sights that are of most interest to you.

Highlights of the area include:

- **Tomohon Traditional Markets –**
The highland climates are perfect for growing a variety of plants, flowers, spices, fruits and vegetables.
- **Lake Linow –** The colors of this lake change due to the high sulphur content in the surrounding rock and the changing light.

- **Lake Tondano –** The largest lake in the region and the second largest in Indonesia. We usually enjoy lunch here overlooking the lake.

Tangkoko National Park

An ideal tour for nature lovers and photographers.

- **Based at the foot of the Dua Saudara Mountain in North Sulawesi the area is a mixture of rolling hills and valleys which we walk through in search of numerous wildlife species.**
